	Precautionary statement	
Prevention Observe good industrial hygiene practices.	Prevention	Observe good industrial hygiene practices.
Response Wash hands after handling.	Response	Wash hands after handling.
Storage Store away from incompatible materials.	Storage	
Disposal Dispose of waste and residues in accordance with local authority requirements.	Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise None.	Hazard(s) not otherwise	None.

3. Composition/Information on ingredients

None.

are in percent by volume.

classified (HNOC)

Supplemental information

Mixtures		
Chemical name	CAS number	%
Sodium azide	26628-22-8	< 0.1
Composition comments	All concentrations are in percent by wei	ght unless ingredient is a gas. Gas concentrations

4. First-aid measures	
Inhalation	Move to fresh air. Get medical attention if any discomfort continues.
Skin contact	Remove contaminated clothing. Wash skin with soap and water. Get medical attention if irritation develops or persists.

Eye contact	Rinse immediately with plenty of water, also under the eyelids. Get medical attention if irritation develops or persists.
Ingestion	Rinse mouth thoroughly. Get medical attention if any discomfort occurs.
Most important symptoms/ effects, acute and delayed	Dry skin.
Indication of immediate medical attention and special treatment needed	Treat symptomatically.
General information	Get medical attention if any discomfort develops.

5. Fire-fighting measures

Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.	
Unsuitable extinguishing media	None known.	
Specific hazards arising from the chemical	None known.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus, operated in positive pressure mode and full protective clothing must be worn in case of fire.	
Fire-fighting equipment/ instructions	Move containers from fire area if you can do it without risk. Use water spray to cool unopened containers. Prevent entry to sewers and public waters.	
General fire hazards	The product is non-combustible.	
6 Accidental release measures		

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Avoid inhalation of mist and contact with skin and eyes. For personal protection, see Section 8 of the SDS.
Methods and materials for containment and cleaning up Environmental precautions	Absorb spillage with suitable absorbent material. After removal, flush contaminated area thoroughly with water. For waste disposal, see Section 13 of the SDS. Prevent further leakage or spillage if safe to do so.

7. Handling and storage

Precautions for safe handling	Avoid contact with eyes and prolonged skin contact. Wash hands after handling. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store away from incompatible materials.

8. Exposure controls/personal protection

Occupational exposure limits

Components	Туре	Value
Sodium azide (CAS 26628-22-8)	Ceiling	0.29 mg/m3
		0.11 ppm

Components	Туре	Value	
Sodium azide (CAS 26628-22-8)	Ceiling	0.3 mg/m3	
		0.1 ppm	

Biological limit values Appropriate engineering No biological exposure limits noted for the ingredient(s).

controls

Provide adequate ventilation. Provide easy access to water supply and eye wash facilities.

Hand protection

Individual protection measures, such as personal protective equipment Eye/face protection Risk of splashes: Wear safety glasses with side shields.

Skin protection

Wear protective gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.

Other	Wear appropriate clothing to prevent repeated or prolonged skin contact.
Respiratory protection	No special precautions. Seek advice from local supervisor.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene	Handle in accordance with good industrial hygiene and safety practice. Wash hands after
considerations	handling. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Colored, dependent on the conjugates.
	(Alexa Fluor $^{ m R}$ 488; yellowish green, Alexa Fluor $^{ m R}$ 594; purple, Alexa Fluor $^{ m R}$ 647; pale blue,
	APC; light blue, Azami-Green; pale green, FITC; yellowish green, PE; pink)
Odor	Odorless.
Odor threshold	Not available.
рН	Neutral.
Melting point/freezing point	Not available.
Initial boiling point and	Not available.
boiling range	
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or e	explosive limits
Flammability limit	Not available.
- lower (%)	
Flammability limit	Not available.
- upper (%)	
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	Soluble in water.
Partition coefficient	Not available.
(<i>n</i> -octanol/water)	
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

10. Stability and reactivity

Reactivity	The product is stable and non reactive under normal conditions of use, storage and
Chemical stability	Stable at normal conditions.
Possibility of hazardous reactions	Sodium azide: Reacts with copper, lead, silver, mercury and carbon disulfide to form particularly shock-sensitive compounds. Reacts with acids, forming toxic and explosive hydrogen azide.
Conditions to avoid	None known.
Incompatible materials	Heavy metals. Acids.
Hazardous decomposition products	None known.

11. Toxicological information Information on likely routes of expos

Information on likely routes of exposure		
Ingestion	Large quantities: May cause discomfort if swallowed.	
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.	
Skin contact Eye contact	Prolonged contact may cause dryness of the skin. Direct contact with eyes may cause temporary irritation.	

Symptoms related to the	Dry skin.	
physical, chemical and		
toxicological characteristics		
Information on toxicological e		
Acute toxicity	Large quantities: May cause discomfort if swallowed.	
Skin corrosion/irritation	May cause mild skin irritation.	
Serious eye damage/eye	May cause eye irritation.	
irritation		
Respiratory sensitization	Based on available data, the classification criteria are not met.	
Skin sensitization	Based on available data, the classification criteria are not met.	
Germ cell mutagenicity	No data available.	
Carcinogenicity	all Evaluation of Carcinogenicity	Not listed.
NTP Report on Carcinog		Not listed.
	ated Substances (29 CFR 1910.1001-1050)	Not listed.
Reproductive toxicity	No data available.	
Specific target organ toxicity		
- single exposure		
Specific target organ toxicity	No data available.	
 repeated exposure 		
Aspiration hazard	Based on available data, the classification criteria are not met.	
Chronic effects	Prolonged inhalation may be harmful.
