

Announcement: Change of bottle

## Change of bottle for Afamin/Wnt3a CM [Code No. J2-001]

Dear Customers,

First of all, please accept our sincere gratitude for your continued support.

Currently, a packaging of our Afamin/Wnt3a CM [Code No. J2-001] product is 20 ml. Since the global material shortages made it difficult to procure existing bottles, with future versions of the bottle size will change. Also recombinant protein itself is not changed. We will use the new bottle sequentially from November 2022. The following tables summarize changes of the bottles.

Thank you very much for your kind understanding and cooperation.

Sincerely,  
MBL  
November, 2022
